How does the teacher foster a classroom environment that encourages student participation and promotes enjoyment so that teenagers learn to appreciate literary study? More specifically, how can teachers cover centuries of American literature with students who don't appreciate why they should read material written centuries ago about people and issues that appear to be irrelevant to life today in a language that seems esoteric? The author of this series of high school teaching guides addresses these issues. *How to Teach American Literature: A Practical Teaching Guide* provides a detailed resource for teachers or anyone interested in an in-depth study of the subject. Min Headmaster Covenant Christian Academy, Cumming, GA *Where is American Literature?* offers a spirited and compelling argument for rethinking the way we view

American literature in relation to the nation while powerfully demonstrating why it continues to matter in a global age. A refreshing and accessible investigation into the various locations - linguistic, geographical, virtual, ideological- where American writing is produced and consumed Takes a highly original approach by viewing US literature spatially rather than chronologically or thematically, retuning our understanding of the subject The book offers a vital intervention in current debates over the impact of digital technologies on the production and reception of literature, ensuring that the field remains lively and dynamic Invites readers to reconsider the subject by questioning current perspectives on, and approaches to, US literature, offering a range of fresh perspectives on familiar texts and topics How do we approach the rich field of nineteenth-century American literature? How might we recalibrate the coordinates of critical vision and open up new areas of investigation? To answer such questions, this volume brings together 23 original essays written by leading scholars in American literary studies. By examining specific novels, poems, essays, diaries and other literary examples, the authors confront head-on the implications, scope, and scale of their analysis. The chapters foreground methodological concerns to assess the challenges of transnational perspectives, disability studies, environmental criticism, affect studies, gender analysis, and other cutting-edge approaches. The Oxford Handbook of Nineteenth-Century American Literature is thus both critically incisive and sharply practical, inviting attention to how readers read, how critics critique, and how interpreters interpret. It offers forceful strategies for rethinking protest novels, women's writing, urban literature, slave narratives, and popular fiction, just to name a few of the wide array of topics and genres covered. This volume, rather than surveying established ideas in studies of nineteenth-century American literature, registers what is happening now and anticipates what will shape the field's future. Alphabetically arranged entries include discussions of individual authors, literary movements, institutions, notable texts, literary developments, themes, ethnic literatures, and "topic" essays. "The White Man does not understand the Indian for the reason that he does not understand America. He is too far removed from its formative process. The roots of the tree of his life have not yet grasped rock and soil." The words of Lakota writer Luther Standing Bear foretold the current debate on the value of Native American studies in higher education. Studying Native America addresses for the first time in a comprehensive way the place of this critical discipline in the university

curriculum. Leading scholars in anthropology, demography, English and literature, history, law, social work, linguistics, public health, psychology, and sociology have come together to explore what Native American studies has been, what it is, and what it may be in the future. The book's thirteen contributors and editor Russell Thornton, stress the frequent incompatibility of traditional academic teaching methods with the social and cultural concerns that gave rise to the field of Native American studies. Beginning with the intellectual and institutional history of Native American studies, the book examines its literature, language, historical narratives, and anthropology. The volume discusses the effects on Native American studies of law and constitutionalism; cosmology, epistemology, and religion; identity; demography; colonialism and post-colonialism; science and technology; and repatriation of human remains and cultural objects. Contributors to *Studying Native America* include Raymond J. DeMallie, Bonnie Duran, Eduardo Duran, Raymond D. Fogelson, Clara Sue Kidwell, Kerwin Lee Klein, Melissa L. Meyer, John H. Moore, Peter Nabokov, Katheryn Shanley, C. Matthew Snipp, Rennard Strickland, Russell Thornton, J. Randolph Valentine, Robert Allen Warrior, Richard White, and Maria Yellowhorse-Braveheart. The book is sponsored in part by the Social Science Research Council. Lexile Level 710 Reading Level 3-4 Interest Level 6-12 Volume I of *The Cambridge History of American Literature* was originally published in 1997, and covers the colonial and early national periods and discusses the work of a diverse assemblage of authors, from Renaissance explorers and Puritan theocrats to Revolutionary pamphleteers and poets and novelists of the new republic. Addressing those characteristics that render the texts distinctively American while placing the literature in an international perspective, the contributors offer a compelling new evaluation of both the literary importance of early American history and the historical value of early American literature. The *Cambridge Handbook of American Literature* offers a compact and accessible guide to the major landmarks of American literature. Drawing on a wide array of literary, historical, and theoretical sources, Rachel Lee addresses current debates on the relationship among Asian American ethnic identity, national belonging, globalization, and gender. Lee argues that scholars have traditionally placed undue emphasis on ethnic-based political commitments--whether these are construed as national or global--in their readings of Asian American texts. This has constrained the intelligibility of stories that are focused less on ethnicity than on kinship, family dynamics, eroticism, and gender roles. In response, Lee makes a case for a reconceptualized Asian American criticism that centrally features gender and sexuality. Through a critical analysis of select literary texts--novels by Carlos Bulosan, Gish Jen, Jessica Hagedorn, and Karen Yamashita--Lee probes the specific ways in which some Asian American authors have steered around ethnic themes with alternative tales circulating around gender and sexual identity. Lee makes it clear that what has been missing from current debates has been an analysis of the complex ways in which gender mediates questions of both national belonging and international migration. From anti-miscegenation legislation in the early twentieth century to poststructuralist theories of language to Third World feminist theory to critical studies of global cultural and economic flows, *The Americas of Asian American Literature* takes up pressing cultural and literary questions and points to a new direction in literary criticism. *Chinese American Literature since the 1850s* traces the origins and development of the extensive and largely neglected body of literature written in English and in Chinese, assessing its themes and style and placing it in a broad social and historical context. This essential volume, a much-needed introduction and guide to the field, shows how change and continuity in the Chinese American experience are reflected in the writings of immigrants from China and their descendants in the United States. Using a fresh approach that

combines literary and historical scholarship, Xiao-huang Yin covers representative works from the 1850s to the present. These include journalistic and autobiographical texts from nineteenth-century Chinese authors; writings on the walls of Angel Island, the main Asian immigrant arrival point on the West Coast; writings of late-nineteenth- and early-twentieth-century "cultivated Chinese", students and scholars who came to America to advance their educations; and the work of more recent authors who have entered the canon, including Sui Sin Far, Jade Snow Wong, Frank Chin, Maxine Hong Kingston, and Amy Tan. As the only volume that covers the literature written by immigrant authors in the Chinese language, Xiao-huang Yin's book significantly enlarges the scope of Chinese and Asian American studies. This body of literature, including works by immigrant writers such as Chen Ruoxi, Yu Lihua, and Zhang Xiguo, reflects the high percentage of Chinese Americans for whom the Chinese language remains an integral part of everyday life. A core text for students and scholars of Asian American studies, Chinese American Literature since the 1850s is an important resource for literary critics, historians, sociologists, and anthropologists interested in diaspora studies, transnationalism, cultural studies, race and ethnicity, and the immigrant experiences in which Chinese American literature is embedded. In the past decades, children of immigrants have drawn increased attention not only in press and media, but also in a number of academic fields, among them sociology, history, or ethnology. Surprisingly, literary and cultural studies have been somewhat more reluctant to approach the topic. While there is work on individual authors or, at the very most, particular ethnic groups, comparative approaches are rare. This monograph aims to amend this. It provides an extensive discussion of US-American literature about children of immigrants, comparing different authors, different ethnic groups and different literary and historical contexts. American Literature Before 1880 attempts to place its subject in the broadest possible international perspective. It begins with Homer looking westward, and ends with Henry James crossing the Atlantic eastwards. In between, the book examines the projection of images of the East onto an as-yet unrecognised West; the cultural consequences of Viking, Colombian, and then English migration to America; the growth and independence of the British American colonies; the key writers of the new Republic; and the development of the culture of the United States before and after the Civil War. It is intended both as an introduction for undergraduates to the richness and variety of American Literature, and as a contribution to the debate about its distinctive nature. The book therefore begins with a lengthy survey of earlier histories of American Literature. Multi-volume history of American literature. Within the spectrum of American literary traditions, Arab American literature is relatively new. Writing produced by Americans of Arab origin is mainly a product of the twentieth century and only started to flourish in the past thirty years. While this young but thriving literature varies widely in content and style, it emerges from a common community and within a specific historical, political, and cultural context. In Modern Arab American Fiction, Salaita maps out the landscape of this genre as he details rather than defines the last century of Arab American fiction. Exploring

the works of such best-selling authors as Rabih Alameddine, Mohja Kahf, Laila Halaby, Diana Abu-Jaber, Alicia Erian, and Randa Jarrar, Salaita highlights the development of each author's writing and how each has influenced Arab American fiction. He examines common themes including the Israel-Palestine conflict, the Lebanese Civil War of 1975-90, the representation and practice of Islam in the United States, social issues such as gender and national identity in Arab cultures, and the various identities that come with being Arab American. Combining the accessibility of a primer with in-depth critical analysis, *Modern Arab American Fiction* is suitable for a broad audience, those unfamiliar with the subject area, as well as scholars of the literature.
