Handbook of Linguistic Annotation Jan 28 2021 This handbook offers a thorough treatment of the science of linguistic annotation. Leaders in the field guide the reader through the process of modeling, creating an annotation language, building a corpus and evaluating it for correctness. Essential reading for both computer scientists and linguistic researchers. Linguistic annotation is an increasingly important activity in the field of computational linguistics because of its critical role in the development of language models for natural language processing applications. Part one of this book covers all phases of the linguistic annotation process, from annotation scheme design and choice of representation format through both the manual and automatic annotation process, evaluation, and iterative improvement of annotation accuracy. The second part of the book includes case studies of annotation projects across the spectrum of linguistic annotation types, including morpho-syntactic tagging, syntactic analyses, a range of semantic analyses (semantic roles, named entities, sentiment and opinion), time and event and spatial analyses, and discourse level analyses including discourse structure, co-reference, etc. Each case study addresses the various phases and processes discussed in the chapters of part one.

With the school year swiftly approaching, Trey fights to overcome his physical limitations as well as his constant fear. For twenty-five years, Cole has managed to keep his private life separate from his job. Extending a helping hand to a colleague shouldn't be a big deal, but the feelings Trey invokes in Cole are anything but professional. Can the teacher tutor the principal in love, or will class be out for these two before the school year even begins?

[Poker Night: A Box Set](#) Dec 07 2021 Texas Hold 'Em A pizza delivery never felt so good. Zac Grainger's life is pretty quiet. Other than coaching high school football, the only excitement he gets is playing poker with his close friends every other Saturday. That is until he opens the door to the hottest pizza delivery man he's ever seen, and man, does Zac want a piece of that pie. Eric Stanton spends long hours as an intern at one of the largest hospitals in San Francisco. To help keep a roof over his head, he also has a part-time job as a pizza delivery driver. When a gorgeous customer tries to flirt with him, Eric's too tired to reciprocate. Just when Eric wonders if he'll get a second chance with the guy, an order is placed requesting him personally. Tired or not, perhaps things are looking up. Slow-Play Charter Captain Bobby Quinn loves life on the water. What he hates is working for his brother. Charter Captain Bobby Quinn loves life on the water. What he hates is working for his brother. After years spent restoring an aging wooden yacht, his brother bought it out from under him. In Bobby's mind, if family will screw you at the drop of a hat so will everyone else so, except for his bi-weekly poker game, he sticks to the solitude of the boat he loves. Dr. Jules Peters knows all about solitude. When not working endless hours as Head of Emergency Medicine, he's tinkering in his garage. A collector of vintage cars in need of TLC, Jules has an impressive collection of cars but few friends.

Jules meets Bobby when he's given a cruise around the San Francisco Bay as a gift. Although their mutual attraction is explosive, neither man is ready to move out of his comfort zone. It might take a meddling med student and an off-season football coach to get these two loners to see there's more to life than caring for inanimate objects.
