Lead So Your People Speak Freely Candid communication enhances innovation, ownership, engagement, and performance. The benefits of hearing questions and uncertainties, good and bad ideas, and honest feedback are game-changing. Yet research shows that most of the time, people never share their true thoughts with each other—and especially not with their leaders. But what if they did? What if everyone could confidently communicate without fearing a negative response? In *Permission to Speak Freely*, highly acclaimed leader developers Doug Crandall and Matt Kincaid

illustrate the benefits of candor, explain the inhibitors that cause it to feel unsafe, and provide tools for leaders to encourage their people and embed trust and openness into the foundation of their organizational culture. In a calm, sustained style, the author breaks new ground in the ongoing feminist theological pilgrimage, one that will make traditionalists squirm and liberationists cheer." 'Choice' In 'The Power to Speak', Rebecca Chopp offers an exhilarating defense of feminist theology as proclamation and good news for all. Arguing for a critique and transformation of language, subjectivity, and politics, this thoughtful, engaged book opens new directions in feminist thought." Elizabeth Fox-Genovese A provocative treatment of feminist theology's deepest potential to transform the discipline through language." 'WATERwheel' Rebecca Chopp is developing an original theological position. Her interpretation of Christian faith and Christian theology as having to do primarily with 'emancipatory transformation' breaks through the individualistic pietism of modern liberalism as well as the provincialism of many of the liberation theologies." Gordon D. Kaufman The current crisis in the Church, while profoundly disturbing and troubling, offers possibilities for a renewed and revitalized Church. Cozzens underscores the critical need for laity and clergy to speak honestly and courageously to Church authorities. Our ancestors developed a uniquely nature-focused society, centred on esteemed poets, seers, monks, healers and wise women who were deeply connected to the land. They used this connection to the cycles of the natural world - from which we are increasingly dissociated - as an animating force in their lives. In this illuminating new book, Manchán Magan sets out on a journey, through bogs, across rivers and over mountains, to trace these ancestor's footsteps. He uncovers the ancient myths that have shaped our national identity and are embedded in the strata of land that have endured through millennia - from ice ages through to famines and floods. Here, the River Shannon is a goddess, and trees and their life-sustaining root systems are hallowed. See the world in a new light in this magical exploration into the life-sustaining wisdom of what lies beneath us.

Throughout the Bible, God spoke to people, but does He still speak to us today? Through personal stories in *Speak to Me, Lord, I'm Listening*, you will gain fresh insight into how God communicates with us. Come along and hear how God spoke to me the day a fire threatened our home and again when we endured a mudslide. Enjoy His sense of humor as He spoke in the midst of a disastrous camping trip. Be encouraged by how He provided specific Scripture in the face of important decisions and wisdom regarding a sticky relationship. Experience the amazing words of hope and counsel He gave us regarding our son's college education. Share in the unique words of comfort and support God gave me during my mother's trial with Alzheimer's. Again, when my husband had a stroke, it was God's personal direction that led to a miraculous event. Through stories, interspersed with biblical insights, you will find that our journey through life with Jesus is more than us talking to Him. It is also God speaking words of encouragement, comfort, and direction through Scripture, prayer, people, circumstances, dreams, visions, and His creation. Join me as we embark on an adventure of discovering and recognizing God's voice. Let's listen and delight in hearing Him speak. "My sheep hear My voice, and I know them, and they follow Me" (John 10:27). Resource added for the Psychology (includes Sociology) 108091 courses.

The definitive guide to learning effective skills for engaging in open and honest conversations about divisive issues from three professional mediators. When a conversation takes a turn into the sometimes uncomfortable and often contentious topics of race, religion, gender, sexuality, and politics, it can be difficult to know what to say or how to respond to someone you disagree with. *Compassionate Conversations* empowers us to transform these conversations into opportunities to bridge divides and mend relationships by providing the basic set of conflict resolution skills we need to be successful, including listening, reframing, and dealing with strong emotions.

Addressing the long history of injury and pain for marginalized groups, the authors explore topics like social privilege, power dynamics, and, political correctness allowing us to be more mindful in our conversations. Each chapter contains practices and reflection questions to help readers feel more prepared to talk through polarizing issues, ultimately encouraging us to take risks, to understand and recognize our deep commonalities, to be willing to make mistakes, and to become more intimate with expressing our truths, as well as listening to those of others. Jesus said, "My sheep hear My voice," but many Christians do not know how to hear from God. In this

practical, story-rich guidebook, international teacher Larry Kreider shows believers how to develop a listening relationship with the Lord. *Speak Lord, I'm Listening* explores the multiple ways Christians can hear the voice of God in today's world. It offers real-life examples of how God teaches His followers to listen. Contains tips in each chapter for distinguishing His voice from the noise of Satan's interference. Christians across the denominational spectrum will develop a closer and deeper relationship with God as they learn fifty unique ways to listen to Him. You will realize that God was speaking to you all along but, like the disciples on the road to Emmaus, you didn't know it was Him! *Crack the Code and Get Fluent Faster!* "I had to learn [a new language] in a handful of days for a TV interview. I asked Benny for help and his advice was invaluable." - Tim Ferriss What if you could skip the years of study and jump right to speaking French? Sound crazy? No, it's language hacking. It's about learning what's indispensable, skipping what's not - and using what you've learned to have real conversations in French - from day one! Unlike most traditional language courses that try to teach you the rules of a language, *Language Hacking French* shows you how to learn and speak French immediately through proven memory techniques, unconventional shortcuts and conversation strategies perfect by one of the world's greatest language learners, Benny Lewis, aka the Irish Polyglot. *The Method Language Hacking* takes a modern approach to language learning, blending the power of online social collaboration and the 80/20 principle of learning (Benny's ten #languagehacks show you how to achieve more with less!). It focuses on the conversations and language that learners need to master right away, rather than presenting language in the order of difficulty like most courses. This means you can start having conversations immediately. *Course Features* Each of the 10 units culminates with a speaking mission that you can choose to share on the italki Language Hacking learner community (www.italki.com/languagehacking) where you can give and get feedback and extend your learning beyond the pages of the book. The audio for this course is available for free on library.teachyourself.com or from the Teach Yourself Library app. You don't need to go abroad to learn a language any more. *Engineered to Speak: Helping You Create and Deliver Engaging Technical Presentations* Technical expertise alone is not enough to ensure professional success. Twenty-first century engineers and technical professionals must master making the complex simple and the simple interesting. This book helps engineers do what they love most: take a complicated system and create a stronger solution. You will learn tips and strategies that help you answer one essential question, "How can I get better at sharing my ideas with a variety of audiences?" In *Engineered to Speak*, Alexa Chilcutt and Adam Brooks combine their expertise in messaging and public speaking with research that illustrates how effective communication contributes to career advancement. Each chapter contains inspiring stories from practicing engineers around the world as well as useful examples, exercises and repeatable processes for creating compelling messages. This book helps technical talent become better speakers, better communicators, and ultimately better leaders. This helpful guide demystifies the art of oral communication by breaking it

down into ten easy-to-follow-processes that can improve the ability of professionals at any level. By the end of Engineered to Speak, you'll understand how to gain buy-in, identify and expand your Sphere of Influence, amplify your message, deliver compelling presentations, and learn from those who've embrace these skills and enjoyed professional success. This indispensable resource, for teachers of pupils aged 7-13 years, consists of a series of graduated lesson plans aimed at improving children's speaking and listening skills, their self-confidence and their motivation to learn, ultimately leading to better school performance. The scheme was developed and tested in schools during a four year period with over three thousand children and their teachers, and focuses on class and group activities that are enjoyable as well as instructive. All pupils are able to participate regardless of background, academic standing or facility in English, and the skills acquired are central to the National Curriculum for England and Wales Key Stages 2 and 3. Each lesson worksheet includes learning objectives, guidance on preparation and organisation, an activity guide, and follow-up suggestions, all presented in a clear and simple manner to lead the teacher step by step through the session. The materials are grouped into four levels of difficulty which combine to build a powerful range of abilities associated with persuasive and presentational speech, dialogue and debate, as well as developing the children's command, use, and articulation of English. Each level consists of twelve starter lessons suitable for class-based group work, with sections preparing pupils for a variety of class competitions including public speaking, poetry reading and debating. The activities link naturally with other areas of the curriculum, and topics already being studied can easily be incorporated. In a parallel controlled research project highly significant gains in a nationally standardised test of non-verbal reasoning were made over a seven month period by children who followed the activities for one lesson a week compared to those who did not. These were well in excess of what would be expected for their increased age. Particularly high gains were made by children of lesser ability and those for whom English was an additional language. The improvements recorded were later confirmed by the schools' own National Curriculum assessments of progress against targets, where on average the project children exceeded substantially the end of year forecasts made by their teachers.
