Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews. Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews. Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews. This book fills an important underserved niche in the strategy arena. Written by expert researchers on Asian business, it presents a broad selection of cases addressing a range of current and important issues in business strategy. The cases have been carefully chosen to represent all the different dimensions of diversity

within Asia: geographic (countries), industries, and firm types. More than half of them are either new to or revised for this edition. The cases present an array of large and small firms, high-technology and new-economy firms, and those in emerging as well as mature industries, achieving success and suffering failure in a variety of business environments. Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better. PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology. Legitimizing Television: Media Convergence and Cultural Status explores how and why television is gaining a new level of cultural respectability in the 21st century. Once looked down upon as a "plug-in drug" offering little redeeming social or artistic value, television is now said to be in a creative renaissance, with critics hailing the rise of Quality series such as Mad Men and 30 Rock. Likewise, DVDs and DVRs, web video, HDTV, and mobile devices have shifted the longstanding conception of television as a household appliance toward a new understanding of TV as a sophisticated, high-tech gadget. Newman and Levine argue that television's growing prestige emerges alongside the convergence of media at technological, industrial, and experiential levels. Television is permitted to rise in respectability once it is connected to more highly valued media and audiences. Legitimation works by denigrating "ordinary" television associated with the past, distancing the television of the present from the feminized and mass audiences assumed to be inherent to the "old" TV. It is no coincidence that the most validated programming and technologies of the convergence era are associated with a more privileged viewership. The legitimation of

television articulates the medium with the masculine over the feminine, the elite over the mass, reinforcing cultural hierarchies that have long perpetuated inequalities of gender and class. Legitimizing Television urges readers to move beyond the question of taste—whether TV is "good" or "bad"—and to focus instead on the cultural, political, and economic issues at stake in television's transformation in the digital age. Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews. Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews. Implement state-of-the-art Mobile TV networks with this comprehensive guide to the latest technologies and standards, including MediaFLO, ATSC Mobile DTV, and CMMB, the same technologies seeing large-scale rollouts today around the world. You not only gain deep insight into the maze of technologies, but also the principles of mobile content—what makes it work, how it's produced, repurposed and delivered securely, and how it integrates with mobile and Internet domains. Learn about the key enablers of a mobile TV service, like smartphones, chipsets, and mobile software. Gain access to a detailed look at the networks deployed worldwide with real-world case studies. The informative diagrams provide rich visualization of the new technologies, services, and revenue models. Gain understanding of how mobile TV can be made interactive and how it can be delivered seamlessly in multiple markets. Get insight into the growing capabilities of multimedia handsets and software which drives innovative applications. Author Amitabh Kumar begins with the basics of mobile multimedia and progresses to cover details of technologies, networks, and firmware for mobile TV services. Easy to follow, Implementing Mobile TV features a rich presentation that includes dozens of FAQs and "Quick Facts." This new edition is updated to reflect the quickly evolving world of Mobile TV, focusing on factors for success and providing understanding of: PCMag.com is a leading

authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology. From the tender young age of two, Christopher's focus in life has always centered around pirates. His fascination far transcends a basic interest, however, and there is something very familiar and comfortable about pirate lore that seems to speak to something deep inside. Unfortunately, that's also where the nightmares come from. When Christopher meets Travis, his polar opposite in every way, he discovers that his draw toward pirates intensifies, as do his nightmares. As he moves closer to a familiar destination, Christopher begins to wonder whether his nightmares are actually fiction after all, and if his draw to pirates has a far deeper foundation.

Focuses on how leaders use strategy, structures, and systems to create the conditions that stimulate others to meaningfully contribute to the overarching goals of the organization. This book explores how leaders exercise leadership indirectly through structures, processes and systems that stimulate others to contribute to organizational goals. Los Angeles magazine is a regional magazine of national stature. Our combination of award-winning feature writing, investigative reporting, service journalism, and design covers the people, lifestyle, culture, entertainment, fashion, art and architecture, and news that define Southern California. Started in the spring of 1961, Los Angeles magazine has been addressing the needs and interests of our region for 48 years. The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian. Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews. Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews. We can't all camp out in old-growth forests, lying down in front of the bulldozers. And it's not only

that we're too busy: Some of us just don't want our fabulous threads to get caked with mud. But that doesn't mean we don't care passionately about the environment. Luckily, the days when becoming environmentally aware entailed eating bread that tasted like dirt, wearing clothes that looked like frayed burlap sacks, and spending summer vacations assailing whaling ships with Greenpeace are passing away. It is now perfectly possible (and increasingly easy) to be well fed, well coiffed, well dressed, and well traveled while remaining deeply committed to an ecologically sustainable lifestyle. In *The Lazy Environmentalist*, Josh Dorfman—host of the Sirius Satellite Radio program of the same name—provides comprehensive guidance to fashion-forward consumers who are as concerned about the long-term health of our planet as they are about the design of their bathroom fixtures. Covering topics that range from clothing to electronic gadgetry, home decor to recreation, and gardening to financial investment, Dorfman lets us know which trends to watch and which eco-conscious products—cars, toothbrushes, cell phones, pet accessories—to buy. Green, it turns out, can be an extremely stylish color. Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews. "The second edition of this great book brings a wealth of updates and insights into international advertising. Barbara Mueller has a knack of drawing you in so that you find yourself unable to put each chapter down. One of the great strengths of the book is that it provides context, be it historic, societal or marketing, along with considerable depth of knowledge."—Douglas West, University of Birmingham -- Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews. Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews. Innovation in technology and services was once the result of specialist knowledge developed within a single corporation; now, a single focus on the

development of new products and services is no longer enough. In *Interactive Business Communities*, Mitsuru Kodama shows how a new business approach can enable managers to access, share and integrate diverse knowledge both inside and outside the corporation using Boundary Networks to operate across more formal organizational and knowledge boundaries at all levels. Drawing on his studies of large corporations in America and the Far East, Mitsuru, shows how different companies have already started to take this path. He explains the kind of networks and strategic partnerships that have emerged and gives practical guidelines on how to begin forming in-house business communities and extending this to interactive business communities with customers and other organizations. This book is a valuable resource for business educators and researchers, and senior executives responsible for strategy, particularly in high-tech industries, will find insights and ideas to tackle 21st century market and business discontinuities. Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews. Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews. Popular Science gives our readers the information and tools to improve their technology and their world.
