Vaste grond Oct 25 2020 'Vaste grond' van Paulette Jiles is een historische roman die zich afspeelt tijdens de nasleep van de Amerikaanse burgeroorlog. Nu op Netflix als 'News of the World' met Tom Hanks. Nu op Netflix als 'News of the World' met Tom Hanks. Vaste grond van Paulette Jiles is een historische roman die zich afspeelt tijdens de nasleep van de Amerikaanse burgeroorlog. De oude veteraan Kapitein Jefferson Kidd reist rond als krantenlezer. Op een dag krijgt hij het verzoek om een tienjarig weesmeisje, dat gekidnapt werd en vier jaar lang bij een indianenstam woonde, terug te brengen naar haar familie. Kidd vertrekt met het verwilderde kind naar het zuiden van Texas: een zware tocht van bijna zevenhonderd kilometer, dwars door een ruig en door geweld geteisterd gebied. Gaandeweg groeit het vertrouwen tussen de oude man en het meisje – een band die voor beiden het verschil tussen leven en dood zal uitmaken. Een prachtig gecomponeerde historische roman over vrijheid, verantwoordelijkheid en verzoening, en over de vraag wat dat nu eigenlijk is, 'beschaving'.

Long-Term Solutions for a Short-Term World Oct 13 2019 Long-Term Solutions for a Short-Term World demonstrates the complexity of the challenges that poor countries face and introduces the readers to the concept and impact of participatory research for development.

Participatory research requires researchers to work with communities, governments, and other relevant actors to deal with common problems. Finding solutions requires participants to reflect critically on the cultural, economic, historical, political, and social contexts within which the issue under investigation exists. The book contains a collection of essays from development researchers and professionals, each of whom is an activist who has made significant contributions to the struggles of the poor in their own societies. Essays are presented as case studies and, in each, the contributor explains the specific development problem, the paths followed to solve the problem, lessons learned as a result of the research, and the development challenges on the horizon in his field of research. Together, these essays present a fascinating picture of how some of today's most pressing development issues are being dealt with through research, demonstrating how interdisciplinary and alternative approaches can be implemented in new and innovative ways.

Secrets of the World's Worst Matchmaker Dec 19 2022 Colton is Juno's best friend. He'd usually be the one she goes to for advice on what do you do when you fall in love with your best Imagine you're a matchmaker and you realize too late you're in love with your childhood best friend. You only have yourself to blame—you're the one who matched him and now he's engaged to be married. When you find yourself in this position there's a few secrets you're going to need to keep... Secret #1 – Smile when he tells you the happy news, even if your heart cracks in half. Secret #2 – Don't compare yourself to his beautiful French fiancée. You're just as beautiful. Secret #3 – Don't tag along to the tux fitting with him alone. Just no. Secret #4 – Don't help

him learn to dance to his wedding song. Secret #5 – Erase all memories of the two of you through the years when lines blurred for even the briefest of moments. And the one you never saw coming... Secret #6 – Definitely, don't stand and object—someone else might just do it for you.

Traveling Around the World with Mike and Barbara Bivona Jul 14 2022 Mike and Barbara Bivona have danced their way around the world, embracing the colorful rhythms of each country and culture in their travels. Now, Mike, the author of Dancing Around the World with Mike and Barbara Bivona, returns to share more of their globe-trotting adventures in part one of a new travel memoir series. While cruising the islands, they witnessed lava flowing into the surf off the shores of Hawaii and danced on a nightclub floor that once saw the white-uniformed officers of the warships anchored at the naval station in Pearl Harbor. Mike describes the thrill and challenge of learning the intricate steps of the Argentine tango in Buenos Aires and, more importantly, absorbing its proper attitude from master dancers. The brimstone fumes wreathing the slopes of Mt. Vesuvius transported them back in time, as the frozen bodies of the unlucky residents of Pompeii and Herculaneumas well as the evidence of Romans lively erotic imagination left on walls and sculptured into clayinspired numerous colorful conversations. Mike and Barbaras shared passion for art and history has

led them to seek out the haunts of other lovers of adventure Columbus, Ponce de Leon, General Custer, circus impresario John Ringling, and the elderly jazz musicians in New Orleans. Part memoir and part travelogue, this volume offers you a trip around the world with the Bivonas without ever leaving your chair. *Traveling Around the World with Mike and Barbara Bivona* by Michael Bivona CPA, published by IUniverse, was a winner in the Annual Eric Hoffer Awards for Short Prose and Independent Books 2014 for eBooks nonfiction The US Review of Books reviewed by Barbara Bamberger Scott.

The World Economic Forum Apr 11 2022 This book explores the paradoxes and unique characteristics of the World Economic Forum, highlighting contemporary issues and debates on global governance, economic development and corporate social responsibility. The Forum is one of the most influential, but least understood, global institutions. Its annual meeting in Davos, Switzerland and its regional summits held around the world attract a significant and powerful audience from the worlds of business, economics, politics and civil society. The participants, who include business and political leaders, representatives of international institutions and civil society organizations, academia and the media, meet to debate issues of global concern and to develop possible solutions. Forum members see the organization as an innovative venue bringing together different types of stakeholders to solve global problems. To its critics, however, the Forum's public face conceals a private venue for making business deals. With clear and concise sections, including boxes containing key ideas and arguments, The World Economic Forum is a much needed introduction to an important and controversial organization and will be of considerable interest to students and practitioners of international business, international political economy, economics, development, international relations, and globalization.

Aan de rand van de wereld Apr 30 2021 DWDD-BOEK VAN DE MAAND NOVEMBER 2014 Dat de middeleeuwen geen lege donkerte tussen het Romeinse Rijk en de renaissance waren, wisten we al langer. Maar nooit slaagde iemand erin het rijke middeleeuwse leven zo dichtbij te brengen als Michael Pye. Hij beschrijft hoe volkeren rond de Noordzee de eerste grote stappen zetten richting ons hedendaagse monetaire systeem, een rechtvaardige justitie, de moderne wetenschap,

een opener visie op liefde en seks. Door overzees contact konden deze ideeën zich verspreiden en kreeg de Noord-Europese identiteit definitief vorm. Pye, gerenommeerd historicus en verteller pur sang, laat ons kennismaken met Vlaamse vissers en Nederlandse ambachtslui, Vikings en artiesten, spionnen en ondernemende hanzeaten. Aan de hand van een ontzaglijk aantal bronnen beschrijft hij hun smaken, ziektes, technologie, mode enzovoort. Aan de rand van de wereld is een ronduit magnifiek boek over duizend wervelende jaren.

To the Edge of the World Jan 20 2023 Christian Wolmar expertly tells the story of the Trans-Siberian railway from its conception and construction under Tsar Alexander III, to the northern extension ordered by Brezhnev and its current success as a vital artery. He also explores the crucial role the line played in both the Russian Civil War -Trotsky famously used an armoured carriage as his command post - and the Second World War, during which the railway saved the country from certain defeat. Like the author's previous railway histories, it focuses on the personalities, as well as the political and economic events, that lay behind one of the most extraordinary engineering triumphs of the nineteenth century.
