(Computer Books) SAP Certified Solution Manager Associate - Configuration for Operations for SAP Solution Manager 7.1 (SM100) Questions with Answers & Explanations Clearing the Solution Manager Certification will not automatically lead you to a job. However a Certification with some project experience will certainly open a lot of doors for you. The consultants who will benefit the most from a certification are the ones with typically less than 2 year's project experience. This is not to say that consultants with higher experience will not benefit, but at that level, having a certification matters much less. So if you have little or no SAP-Solution Manager experience, you

should get yourself certified, get some project experience, and then the whole of the SAP World open for you to explore. Helping you with the first step on your ladder to success is this book. Mit der Version 7.1 erweitert SAP den SAP Solution Manager mit einigen Funktionen in den Bereichen Testmanagement und Testautomatisierung. Besonders interessant sind die Testwerkzeuge der Testautomatisierung, da das SAP-eigene Testautomatisierungs-Tool eCATT die neuen SAP-Benutzeroberflächen mit unterschiedlichen Technologien nicht unterstützt und somit für das Testen von Geschäftsprozessen nicht geeignet ist. Um diese Lücke zu schließen, wurden verschiedene Drittanwendungen integriert. In diesem Buch wird auf die Möglichkeiten der Testautomatisierung, die sich durch das Upgrade im SAP Solution Manager 7.1 ergeben, eingegangen. Hierzu werden die Werkzeuge eCATT und HP QTP (Drittanwendung) ausführlich untersucht und deren Stärken und Schwächen in der Automatisierung von technologieübergreifenden Geschäftsprozessen aufgezeigt.
