Whether you become a pawn in this drama or take control of your destiny depends on the ability to answer two questions: Why is my box the way it is? How can I transform it? By examining the forces that have shaped your most deeply held beliefs, this book challenges you to think outside the box that society has provided for you ... .. and begin writing your own story.

This is a radically different book because it approaches prayer from God's perspective. Prayer is relationship with God. *What is Rhetoric?* Oct 06 2021 This book offers a new approach to the principles and functioning of rhetoric. In everyday life, we often debate issues or simply discuss questions. Rhetoric is the way in which we answer questions in an interpersonal context, when we want to have an effect on those with whom we are communicating. They can be convinced or charmed, persuaded or influenced, and the language used can range from reasoning to the sharing of narratives, literary or otherwise. *What is Rhetoric?* provides a breakthrough in the field, offering a systematic and unified view of the topic. The book combines the social aspects of rhetoric, such as the negotiation of distance between speakers, with the theory of emotions. All the principal authors from Plato and Aristotle to contemporary theorists are integrated into Michel Meyer's 'problematological' conception of rhetoric, based on the primacy of questioning and answering in language and thought.

Sexual Bargaining in the Digital Era Dec 16 2019 Sexual Bargaining in the Digital Era follows the evolution of genders/sexualities and so on away from their Old Normal (ON) pattern, which prevailed during the Agricultural Age and the Industrial Age, and into the New Normal (NN) pattern which is currently surfacing in concert with an emerging Digital Era. ON was based on the ancient traditional script governing how women, men, children ought to behave within the spheres of genders/marriages/families/relationships/sexualities. Over the centuries, ON eventually modified into the familiar 1950s' style (nuclear) patriarchal, cisgender, husband/wife/with children and family. And now that style itself is fading away into NN. NN is based not on script but on improvisation—it is essentially a continual work-in-progress. To make it function the partners engage in ongoing negotiation governed by the principle that “everything is negotiable except the principle that everything is negotiable.” NN has thus far been pursued most frequently by persons (New Lights) who are educated and relatively advantaged. ON has been pursued mostly by persons (Old Lights) who are less educated and relatively less advantaged. ON is also strongly embraced by persons of a traditional religious bent—persons who tend to be rigid and unbending in their religious views. Currently, they tend to be extremely right-wing evangelicals and extremely right-wing Catholics. Importantly, their political clout far exceeds their relatively modest numbers within the larger population. In brief, the shift from ON to NN is a move away from the sanctity of a particular structure to the primacy of persons engaged in ongoing processes of inventing (and reinventing) certain arrangements of genders/marriages/families/relationships/sexualities, enabling them to fulfil their needs for primary (intrinsic/emotional) satisfactions such as liking, loving, empathy, companionship, sexual and so forth. Among other things, this shift replaces the preeminence of the historic binary or cisgender approach—heterosexual, legal, children and so on—in favor of the diversity/variety/multiplicity approach which incorporates under one conceptual umbrella all persons of whatever genders, sexualities and so on. All persons are thus engaged in a common struggle to achieve personal satisfactions as well as contribute to the Greater Good.
