The three-volume set LNAI 7196, LNAI 7197 and LNAI 7198 constitutes the refereed proceedings of the 4th Asian Conference on Intelligent Information and Database Systems, ACIIDS 2012, held in Kaohsiung, Taiwan in March 2012. The 161 revised papers presented were carefully reviewed

and selected from more than 472 submissions. The papers included cover the following topics: intelligent database systems, data warehouses and data mining, natural language processing and computational linguistics, semantic Web, social networks and recommendation systems, collaborative systems and applications, e-bussiness and e-commerce systems, e-learning systems, information modeling and requirements engineering, information retrieval systems, intelligent agents and multi-agent systems, intelligent information systems, intelligent internet systems, intelligent optimization techniques, object-relational DBMS, ontologies and knowledge sharing, semi-structured and XML database systems, unified modeling language and unified processes, Web services and semantic Web, computer networks and communication systems. This two-volume set LNCS 12192 and 12193 constitutes the refereed proceedings of the 12th International Conference on Cross-Cultural Design, CCD 2020, held as part of HCI International 2020 in Copenhagen,

Denmark in July 2020. The conference was held virtually due to the corona pandemic. The total of 1439 papers and 238 posters included in the 40 HCII 2020 proceedings volumes was carefully reviewed and selected from 6326 submissions. The regular papers of Cross-Cultural Design CCD 2020 presented in this volume were organized in topical sections named: Cross-Cultural User Experience Design; Culture-Based Design, Cross-Cultural Behaviour and Attitude, and Cultural Facets of Interactions with Autonomous Agents and Intelligent Environments. This book constitutes the refereed proceedings of the 11th International Conference on Next Generation Teletraffic and Wired/Wireless Advanced Networking, NEW2AN 2011 and the 4th Conference on Smart Spaces, ruSMART 2011 jointly held in St. Petersburg, Russia, in August 2011. The 56 revised full papers presented were carefully reviewed and selected from numerous submissions. The ruSMART papers are organized in topical sections on role of context in smart spaces, smart spaces

platforms and smart-M3, methods for studying smart spaces, and smart spaces solutions. The NEW2AN papers are organized in topical sections on wireless PHY and power control, ad hoc networks, WSN, special topics, simulation + fundamental analysis I, traffic modeling and measurement, simulation + fundamental analysis II, network performance and QoS, cooperative, P2P, overlay networks and content, applications and services, API and software, and video. This eBook is a collection of articles from a Frontiers Research Topic. Frontiers Research Topics are very popular trademarks of the Frontiers Journals Series: they are collections of at least ten articles, all centered on a particular subject. With their unique mix of varied contributions from Original Research to Review Articles, Frontiers Research Topics unify the most influential researchers, the latest key findings and historical advances in a hot research area! Find out more on how to host your own Frontiers Research Topic or contribute to one as an author by contacting the Frontiers

Editorial Office:

frontiersin.org/about/contact. The three-volume set CCIS 1032, CCIS 1033, and CCIS 1034 contains the extended abstracts of the posters presented during the 21st International Conference on Human-Computer Interaction, HCII 2019, which took place in Orlando, Florida, in July 2019. The total of 1274 papers and 209 posters included in the 35 HCII 2019 proceedings volumes was carefully reviewed and selected from 5029 submissions. The 208 papers presented in these three volumes are organized in topical sections as follows: Part I: design, development and evaluation methods and technique; multimodal Interaction; security and trust; accessibility and universal access; design and user experience case studies. Part II: interacting with games; human robot interaction; AI and machine learning in HCI; physiological measuring; object, motion and activity recognition; virtual and augmented reality; intelligent interactive environments. Part III: new trends in social media; HCI

in business; learning technologies; HCI in transport and autonomous driving; HCI for health and well-being. This book constitutes thoroughly refereed post-conference proceedings of the workshops of the 17th International Conference on Parallel Computing, Euro-Par 2011, held in Bordeaux, France, in August 2011. The papers of these 12 workshops CCPI, CGWS, HeteroPar, HiBB, HPCVirt, HPPC, HPSS HPCF, PROPER, CCPI, and VHPC focus on promotion and advancement of all aspects of parallel and distributed computing.

Covers All Android™ Smartphones and Tablets Running Android 4.4 (KitKat®) or 4.3 (Jelly Bean) Unlock the Power of Your Android™ Smartphone or Tablet Discover hundreds of tips and tricks you can use right away with your Android device to get more done, and have more fun. You'll learn how to use your Android smartphone or tablet as a powerful communication, organization, and productivity tool as well as a feature-packed entertainment device. You will dig deep into the settings and capabilities of both Android itself and the preinstalled apps,

developing the knowledge and skills to exploit them to the fullest. Easy to understand and non-technical, *Android Tips and Tricks* is perfect for beginners—and for more experienced users ready to get more productive or move to newer devices. It covers all new and recent Android smartphones and tablets running Android 4.4 (KitKat®) or 4.3 (Jelly Bean)—with bonus coverage of today's top Android "skins": Samsung TouchWiz and HTC Sense. Here's just a sampling of what this book's tips, tricks, and strategies will help you do:

- Connect to wireless and cellular networks, keyboards and Bluetooth devices, and even VPNs
- Transform your device into a portable Wi-Fi hotspot, and share Internet connections via USB or Bluetooth
- Secure Android with screen and SIM locks, location settings, and encryption
- Sideload apps from any source and keep bad apps from loading
- Take Gmail to pro level with signatures, vacation responders, labels, archiving, advanced search, and secure two-step verification
- Manage multiple email

accounts together: POP, IMAP, web mail, and Exchange • Get more out of your Google Chrome browser, and share bookmarks across all your devices • Chat via text, audio, or video on Google Hangouts—and customize it to work just the way you want • Enjoy your music everywhere, whether it's stored locally or in the cloud • Easily capture, edit, and share top-quality photos and videos • Transform your smartphone or tablet into a total social networking hub • Squeeze more battery life from any Android device

Guy Hart-Davis is the co-author of *My Samsung Galaxy Note 3* and *My HTC One*, and the author or lead author of nearly 100 computer books. *Get the most out of your HTC One (M8) smartphone* *HTC One (M8) For Dummies* is a practical user's guide to the HTC One (M8) device, covering a range of pragmatic and how-to topics, from the most useful features and tricks of the core applications to techniques to get the most out of your smartphone. Approaching the capabilities of the HTC One (M8) from the point of view of a user who is intimidated by the technology, and

perhaps a bit baffled by the documentation and online support that come with the phone, this handy guide covers all aspects of the HTC One (M8) in a familiar and friendly tone. Inside, you'll find trusted and easy-to-follow guidance on everything needed to optimize your experience with your new HTC One (M8) device: setting-up and configuring your phone; staying in touch with texting, e-mailing, and social networking; surfing the web; getting around with maps and navigation; capturing memories with photos and videos; kicking back with movies; loading up on apps; synching with a PC; and so much more. Clearly explains how to integrate e-mail and social networking on one screen Demonstrates why the HTC One (M8) is getting rave reviews, thanks to its amazing camera and video capabilities, battery life, form and function, and overall fantastic benchmarks Shows you how to set up and configure the HTC One (M8) Walks you through expanding your phone's potential with new software releases Don't let the

intimidation of technology get the best of you—let HTC One (M8) For Dummies maximize the performance of your awesome new smartphone. HTC One User Guide: The Ultimate HTC One Manual for Mastering Your Device This guide covers ALL features, basic through advanced. Become a pro with your HTC One! The HTC One burst onto the scene as one of the most powerful and polished smartphones available. But all these new features and added horsepower can be daunting and complicated. Beginner's will learn all there is to know, and advanced users can use this as an invaluable reference. In this HTC One Manual you will learn: How to set-up and navigate your phone How to download Apps in Google Play store New ADVANCED features, such as HTC Blinkfeed, tethering your phone, HTC Watch and HTC Zoe Media features to edit photos and movies like a pro Innovative internet features like Google Hangouts Key Security features to keep your data safe BONUS: Discover the benefits of the HTC One's new camera and all its impressive features. Note from the Author "The new

HTC One is the MOST POWERFUL smartphone on the market. DON'T miss out on unlocking its limitless potential."Grab your copy today and master your HTC One!

The Samsung S6 is an Android smartphone that is manufactured by Samsung Electronics. It was the successor to the Samsung Galaxy S5 and was released in April of 2015. The S6 featured many similarities to the past S5 phone but it also featured some departures from design approaches and the integration of new technologies which made the phone robust and a leader in the smart phone space.

The HTC One M9 is another great Android smartphone that is manufactured by HTC and was released in April 2015. This is a third generation smart phone that is intended to be the successor to the M8 that was released in 2014. The HTC One M9 is similar to its predecessor only in that the body is wider and somewhat thicker. They have also made it more advanced and ready to compete in the current smart phone space. This book is intended to look at the differences and compare the specifications of the Samsung

Galaxy-S6 and the HTC One-M9. Gardez la main sur votre système et repoussez les limites de vos smartphones et tablettes Android ! Comprenez le lien avec Google, les logiciels libres et Linux Synchronisez et partagez (ou pas) vos données et fichiers Économisez la batterie de votre téléphone Optimisez l'ergonomie de votre clavier et écran Sélectionnez des applications efficaces sur le Play Store Sécurisez vos connexions Internet et prévenez les vols et indiscretions Partagez votre connexion 3G (configurez un modem Wi-Fi) et profitez du tethering Contrôlez mieux votre système grâce au rootage et changement de ROM Créez votre serveur de cloud et écrivez votre propre application Ce livre est essentiellement basé sur les versions 4.1, 4.2 et 4.3 (Jelly Bean) et pourra être lu avec profit par les utilisateurs de versions antérieures.

"GALAXY S6 Samsung Galaxy S6 Unofficial User Guide - Discover How To Use Galaxy S6, Easy User Manual, Plus Advanced Tips And Tricks! The vast majority of people are finding it difficult to traverse the

widely varying terrains of modern technology. Even as the vast majority of technology, whether smart phones or tablets, is shifting towards touch based interfaces, the individual features of each device in today's modern day and age can be difficult to decipher and use easily. In recent times, the Samsung Galaxy Series has started to be hailed as the flagship smart phone, despite heavy competition from smart phones from competitors such as the iPhone and the HTC One. With the launch of the new S6, more and more people are looking to buy this excellent smart phone. However, this leads to a great problem: how does one use this smartphone? This is where this guide comes in! Filled with tips and tricks and basic instructions as well as information regarding accessories and apps you should consider getting, this book is the definitive unofficial guide that is designed to help users learn how to use their brand new Samsung Galaxy S6. With everything explained from basic functions to common problems and how to deal with them, everything you need to

know about the S6 is in this book! *Safety and Reliability – Safe Societies in a Changing World* collects the papers presented at the 28th European Safety and Reliability Conference, ESREL 2018 in Trondheim, Norway, June 17-21, 2018. The contributions cover a wide range of methodologies and application areas for safety and reliability that contribute to safe societies in a changing world. These methodologies and applications include: - foundations of risk and reliability assessment and management - mathematical methods in reliability and safety - risk assessment - risk management - system reliability - uncertainty analysis - digitalization and big data - prognostics and system health management - occupational safety - accident and incident modeling - maintenance modeling and applications - simulation for safety and reliability analysis - dynamic risk and barrier management - organizational factors and safety culture - human factors and human reliability - resilience engineering - structural reliability - natural hazards - security

- economic analysis in risk management
Safety and Reliability – Safe Societies in a Changing World will be invaluable to academics and professionals working in a wide range of industrial and governmental sectors: offshore oil and gas, nuclear engineering, aeronautics and aerospace, marine transport and engineering, railways, road transport, automotive engineering, civil engineering, critical infrastructures, electrical and electronic engineering, energy production and distribution, environmental engineering, information technology and telecommunications, insurance and finance, manufacturing, marine transport, mechanical engineering, security and protection, and policy making. Build rich media applications for the iOS and Android platforms with this primer to Flash mobile development. You get all of the essentials—from setting up your development environment to publishing your apps to the Google Market Place/Apple iTunes App Store. Develop elementary applications without coding; then realize the power of ActionScript 3

to add rich complexity to your applications. Step-by-step instruction is combined with practical tutorial lessons to deliver a working understanding of the development stages including: *Rapid prototyping *Adding interactivity, audio, and video *Employing iOS and Android Interface Calls *Hardware optimization with AIR *Game development; game engines, controlling physics, and 3D *Designing for iPad, Android tablets, and Google TV *Code optimization, testing, and debugging User interfaces are presented in full color to illustrate their nuances. The companion website, www.visualizetheweb/flashmobile, includes all of the AS3 code, project files, and a blog to keep you up to date with related news and developments. This Book Is About To Cyber Security Awareness And Online Earning. This user-friendly book introduces biochar to potential users in the professional sphere. It de-mystifies the scientific, engineering and managerial issues surrounding biochar for the benefit of audiences including policy makers, landowners and farmers, land use,

agricultural and environmental managers and consultants, industry and lobby groups and NGOs. The book reviews state-of-the-art knowledge in an approachable way for the non-scientist, covering all aspects of biochar production, soil science, agriculture, environmental impacts, economics, law and regulation and climate change policy. Chapters provide 'hands-on' practical information, including how to evaluate biochar and understand what it is doing when added to the soil, how to combine biochar with other soil amendments (such as manure and composts) to achieve desired outcomes, and how to ensure safe and effective use. The authors also present research findings from the first coordinated European biochar field trial and summarize European field trial data. Explanatory boxes, infographics and concise summaries of key concepts are included throughout to make the subject more understandable and approachable. Biomass is a vital source of renewable energy, because it offers a wide range of established and potential methods for

energy generation. It is also an important facet of the progression toward a sustainable energy future. The need for further development in the provision of bioenergy is underlined by challenges affecting the biomass resource base, including rising demand for biomass for food, feed, materials and fuel. This is underlined by significant concerns over factors relating to land, such as soil, nutrients and biodiversity. This book examines and analyzes Germany's decade-long initiative toward implementation of an active policy for the transition of the energy system to make greater use of renewable energy sources, which has resulted in a significant increase in the amount of biomass used for electricity, heat and transport fuel. The book begins with a review of market and resource base issues and moves on to analyze the technical options for a more integrated bioenergy use. The analysis spans the entire bioenergy provision chain including solid, liquid and gaseous biofuels. A case study offers a detailed model of the effects of smart biomass

energy on the German energy system. The book closes with a view of the most promising fields and an appraisal of needed elements for a successful transition. This handbook is focused on the analytical dimension in researching international entrepreneurship. It offers a diverse collection of chapters focused on qualitative and quantitative methods that are being practised and can be used by future researchers in the field of international entrepreneurship. The qualitative cluster covers articles, conceptual and empirical chapters as well as literature reviews, whereas the quantitative cluster analyses international entrepreneurship through a broad range of statistical methods such as regressions, panel data, structural equation modelling as well as decision-making and optimisation models in certain and uncertain circumstances. This book is essential reading for researchers, scholars and practitioners who want to learn and implement new methods in analysing entrepreneurial opportunities across national borders. Step-by-step

instructions with callouts to HTC One photos that show you exactly what to do Help when you run into HTC One problems or limitations Tips and Notes to help you get the most from your HTC One Full-color, step-by-step tasks walk you through getting and keeping your HTC One working just the way you want. Learn how to Use "pre-setup" to personalize your HTC One before you even unbox it Quickly master all the Android™ skills you'll need Make calls, send text messages, and efficiently manage your email Use HTC Blinkfeed™ to instantly see news and social updates you care about Organize your contacts, your calendar, and your life Store your content safely in the cloud with Google® and Dropbox Save money by making calls through Google Voice™ Work efficiently with HTC One in a business setting Swap data with other modern Android smartphones via Android Beam™ Discover Google Chrome™ tricks that make web browsing faster and simpler See useful time-and-place-sensitive information wherever you go—without even asking Get spoken turn-by-turn directions

through Google Maps™ Transform any call into a conference call Make the most of HTC One's powerful music, video, and image tools Shoot HTC Zoe™ photos that capture the moment better than ever before Read whole libraries of books and magazines on your HTC One Extend your HTC One with new Google Play™ apps Save power to keep your HTC One running longer Looks at the features of the Android phone, covering such topics as personalizing the device, texting, email, talking with Google Now, managing media, and downloading apps. African Journal of Reproductive Health (AJRH) is a multidisciplinary and international Journal published quarterly (March, June, September, and December) by the Women's Health and Action Research Centre (a non-governmental organization with headquarters in Nigeria). The publication of the journal started in 1997. As of September 2013, 54 editions have been published. The journal focuses on publishing original research, comprehensive review articles, short reports and commentaries on reproductive

health in Africa. It strives to provide a forum for both African and foreign authors working in Africa to share findings about all aspects of reproductive health and also to disseminate innovative, relevant, and useful information on reproductive health throughout the continent. The third generation HTC One M9 was announced in March of 2015. The phone has numerous upgraded features compared to the HTC One M8 including individual notifications, better camera quality, battery saving options, high quality audio and a higher resolution screen. The phone is programmed so that it works to personalize its features to work with the habits and activities of individual users and offer helpful apps and information at the right time. It also has many useful default apps and a large selection of additional apps which add to the user's experience. An enhanced user interface, which runs on the latest version of Android, also makes the phone simpler to use than its predecessors. One of the top advantages of the phone over its

competitors is the large storage capacity and it is a favorite among music lovers who want to listen to quality audio and be able to save more of their music on a mobile device. Journal devoted to maize and allied species. This contents of this book cover new business models transcending different technologies and industries, hybrid innovation and boundary vision, business model innovation in ICT industries, semiconductor industry innovations, technology integration through boundary vision, and much more. This volume presents findings and insights from contemporary thinking and research on the application of Information Technology in Educational Management. It analyzes the ways in which ICT has been used, across a range of educational institutions, to support various aspects of educational management. It is the latest in a series of books produced by IFIP Working Group 3.7. This book presents the techniques and tools to design for mobile devices. It is not easy to understand how the mobile market looks and works in general.

There are many questions: How to pick the right mobile strategy and select the right approach for a website? What design patterns and what UX techniques can assist in designing quicker and better for mobile devices? What design patterns help when building responsive websites and to optimize the performance for mobile? How should the design process be different from traditional design workflow? This book attempts to answer these questions with the valuable insights of mobile design experts. -- This book constitutes the refereed proceedings at PAKDD Workshops 2014, held in conjunction with the 18th Pacific-Asia Conference on Knowledge Discovery and Data Mining (PAKDD) held in Tainan, Taiwan, in May 2014. The 73 revised papers presented were carefully reviewed and selected from 179 submissions. The workshops affiliated with PAKDD 2014 include: Data Analytics for Targeted Healthcare, DANTH; Data Mining and Decision Analytics for Public Health and Wellness, DMDA-Health; Biologically Inspired Data Mining Techniques, BDM;

Mobile Data Management, Mining, and Computing on Social Networks, MobiSocial; Big Data Science and Engineering on E-Commerce, BigEC; Cloud Service Discovery, CloudSD; Mobile Sensing, Mining and Visualization for Human Behavior Inferences, MSMV-HBI; Scalable Data Analytics: Theory and Algorithms, SDA; Algorithms for Large-Scale Information Processing in Knowledge Discovery, ALSIP; Data Mining in Social Networks, SocNet; Data Mining in Biomedical Informatics and Healthcare, DMBIH; and Pattern Mining and Application of Big Data, BigPMA. IT changes everyday's life, especially in education and medicine. The goal of ITME 2014 is to further explore the theoretical and practical issues of Ubiquitous Computing Application and Wireless Sensor Network. It also aims to foster new ideas and collaboration between researchers and practitioners. The organizing committee is soliciting unpublished papers for the main conference and its special tracks. In August 1963, one of the best-selling aircraft of British civil aviation, the

BAC One-Eleven, took to the skies for the first time. With an order book for sixty aircraft, more than half were from the United States, which was an unprecedented situation for a British civil aircraft. The first project for the newly formed British Aircraft Corporation, the One-Eleven was wholly designed and built by BAC, and remained in production throughout the entire seventeen-year history of the organisation, performing strongly even when profits were at a low. After flying commercially in Europe for the last time in March 2002, here the One-Eleven is celebrated in style fifty years after its maiden flight. In this revised edition, Stephen Skinner combines original research with fascinating black-and-white and colour images, as well as detailed appendices, to consider what transpired in those five decades and the place the One-Eleven holds in British aviation history. Learn how, as a Flash designer, you can set up a Flash CS5 environment to publish Android apps. Understand how to Design and develop for Android hardware Configure the Android

SDK publish setting Set up Flash CS5 for Android Development Install your AIR application onto an Android OS Build your first application for Android using Flash CS5 With the foundation built, you are now ready to focus on creating great AIR solutions with Flash CS5 for the Android platform. The five-volume set LNCS 12932-12936 constitutes the proceedings of the 18th IFIP TC 13 International Conference on Human-Computer Interaction, INTERACT 2021, held in Bari, Italy, in August/September 2021. The total of 105 full papers presented together with 72 short papers and 70 other papers in these books was carefully reviewed and selected from 680 submissions. The contributions are organized in topical sections named: Part I: affective computing; assistive technology for cognition and neurodevelopment disorders; assistive technology for mobility and rehabilitation; assistive technology for visually impaired; augmented reality; computer supported cooperative work. Part II: COVID-19 & HCI; crowdsourcing methods in HCI; design for automotive interfaces;

design methods; designing for smart devices & IoT; designing for the elderly and accessibility; education and HCI; experiencing sound and music technologies; explainable AI. Part III: games and gamification; gesture interaction; human-centered AI; human-centered development of sustainable technology; human-robot interaction; information visualization; interactive design and cultural development. Part IV: interaction techniques; interaction with conversational agents; interaction with mobile devices; methods for user studies; personalization and recommender systems; social networks and social media; tangible interaction; usable security. Part V: user studies; virtual reality; courses; industrial experiences; interactive demos; panels; posters; workshops. The chapter 'Stress Out: Translating Real-World Stressors into Audio-Visual Stress Cues in VR for Police Training' is open access under a CC BY 4.0 license at link.springer.com. The chapter 'WhatsApp in Politics?! Collaborative Tools Shifting Boundaries'

is open access under a CC BY 4.0 license at link.springer.com. Artificial intelligence has become an integral part of all our lives. Development is rapid in this exciting and far-reaching field, and keeping up to date with the latest research and innovation is crucial to all those working with the technology. This book presents the proceedings of the 24th edition of CCIA, the International Conference of the Catalan Association for Artificial Intelligence, held in Sitges, Spain, from 19 – 21 October 2022. This annual event serves as a meeting point not only for researchers in AI from the Catalan speaking territories (southern France, Catalonia, Valencia, the Balearic Islands and Alghero in Italy) but for researchers from around the world. The programme committee received 59 submissions, from which the 26 long papers and 23 short papers selected for presentation at the conference by the 62 experts who make up the committee are included here. The book is divided into the following sections: combinatorial problem solving and logics for artificial

intelligence; sentiment analysis and tekst analysis; data science, recommender systems and decision support systems; machine learning; computer vision; and explainability and argumentation. This book also includes an abstract of the invited talk given by Prof. Fosca Giannotti. Providing a comprehensive overview of research and development, this book will be of interest to all those working in the field of Artificial Intelligence. Agri-Food Quality brings together the latest research from leading experts in nutrition and food science, the food industry, and regulatory bodies on the subject of food quality. The three-volume set CCIS 1419, CCIS 1420, and CCIS 1421 contains the extended abstracts of the posters presented during the 23rd International Conference on Human-Computer Interaction, HCII 2021, which was held virtually in July 2021. The total of 1276 papers and 241 posters included in the 39 HCII 2021 proceedings volumes was carefully reviewed and selected from 5222 submissions. The posters presented in these three volumes

are organized in topical sections as follows: Part I: HCI theory and methods; perceptual, cognitive and psychophysiological aspects of interaction; designing for children; designing for older people; design case studies; dimensions of user experience; information, language, culture and media. Part II: interaction methods and techniques; eye-tracking and facial expressions recognition; human-robot interaction; virtual, augmented and mixed reality; security and privacy issues in HCI; AI and machine learning in HCI. Part III: interacting and learning; interacting and playing; interacting and driving; digital wellbeing, eHealth and mHealth; interacting and shopping; HCI, safety and sustainability; HCI in the time of pandemic.
