This paper summarizes statistics on the key aspects of the distribution of earnings levels and earnings changes using administrative (social security) data from Italy between 1985 and 2016. During the time covered by our data, earnings inequality and earnings volatility increased, while earnings mobility did not change significantly. We connect these trends with some salient facts about the Italian labor market, in particular the labor market reforms of the 1990s and 2000s which induced a substantial rise in fixed-term and part-time employment. The rise in part-time work explains much of the rise in earnings inequality, while the rise in fixed-term contracts explains much of the rise in volatility. Both these trends affect the earnings distribution through hours worked: part-time jobs reduce hours worked within a week, while fixed-term contracts reduce the number of weeks worked during the year as well as increase their volatility. We find weak evidence that fixed-term contracts represent a "stepping-stone" to permanent employment. Finally, we offer suggestive evidence that the labor market reforms contributed to the slowdown in labor productivity in Italy by delaying human capital accumulation (in the form of general and firm-specific experience) of recent cohorts.

Antietam, Fredericksburg, Gettysburg, Spottsylvania, Cold Harbor, Petersburg... Theodore Gerrish was at them all with Colonel Joshua Lawrence Chamberlain's 20th Maine Regiment. His vivid, compassionate, and often humorous telling is from the spot on the field where the minie-balls are thickest and the cannonading is deafening. This is one of the best private-soldier memoirs of the American Civil War in its scope and its minute details. The views Gerrish provides at the end of famous officers as seen from the private soldier's point of view include Grant, Meade, Hooker, Josuah Lawrence Chamberlain, and others with whom he came in contact. Some of the humor: "Chaplain, will you be kind enough to tell me what the two capital letters, B.C., stand for, when they are printed together upon anything?" "O, yes. It means before the birth of our Saviour, previous to the beginning of the Christian era." He proceeded to give quite a profound theological exposition of the matter, and then inquired, "Why did you ask so unusual a question?" "O, nothin'," answered the innocent Dick, "only we have seen it stamped on these sheets of hard-tack, and were curious to know why it was there." Of the African-Americans who fought, Gerrish says: "As these two races march beside each other in the struggle of life, we only ask and demand that those who, in their poverty, did all they could to save the nation and assist its defenders, shall not be deprived of their sacred rights." Front-line letters and diaries of the Civil War bring an immediacy to a long-ago event and connect us to these everyday men and women who lived it.
