Xist Publishing creates books for the touchscreen generation and is dedicated to helping everyone develop a lifetime love of reading, no matter what form it takes 34 In the art of Eskrima, few names resound like the late Edgar Sulite's. This young man from the Philippines sought out numerous masters, tested his skill in challenge matches, and developed a system called LAMECO (an acronym for Largo, Medio, Corto; the 3 fighting ranges of Eskrima). In this unique book, Sulite's "backyard" student and close friend Guro David E. Gould recounts the life, the art and the legend of Punong Guro Edgar G.***

***Sulite and his Lameco Eskrima system. Broke down into 10 distinct chapters, Lameco Eskrima: The Legacy of Edgar G. Sulite, shows the evolution of a fighter and his art, from the early years of training in Tacloban City and Ozamis City, with legendary masters to the founding of Lameco Eskrima and Sulite's meeting in Manila of such notable figures as Christopher Ricketts, Tony Diego and Tatang Ilustrisimo. Chapter 4 discusses the writing of Sulite's three classic books, his world tour and challenge matches. This is followed by chapters on Sulite's relocation to Los Angeles, the spread of his art internationally, and his invitation-only backyard class. The late Punong Guro used to say that one must try their best to get a collective understanding, a complete image of a person by looking into all available sources. This book, and these last chapters, provides such insights and exposure found nowhere else. 'Bescheiden vragen' van Edgar H. Schein is een simpele en effectieve techniek om meer positieve relaties te bouwen, vooral tussen mensen met statusverschil. Een echte leider geeft mensen de ruimte zelf te denken door vragen te stellen, in plaats van aan te geven hoe het moet. Dat is best lastig: iedereen vindt het fijn om te laten zien wat hij weet, en van een leider wordt bovendien verwacht dat hij de antwoorden heeft.***

***Maar je kunt onmogelijk de antwoorden hebben als je niet meer dagelijks met je handen in de klei staat, en je kunt ook niet alles zelf doen. Creëer een cultuur waarin misstanden aan de kaak gesteld worden, waarin bazen die het mis hebben tegengesproken worden, waarin ideeën vrij geopperd worden; waarin vragen vrijstaat. 'Bescheiden vragen' is een kleinood vol compassie en wijsheid voor wie aan positieve relaties wil bouwen. Pijn en schaamte over de koloniale geschiedenis van Nederland in Suriname. Dat overheerst in het leven en werk van schrijver en dichter Edgar Cairo. Het is beklemmend aanwezig in de documentaire. De film ging op 16.11.2010, de tiende sterfdag van Edgar Cairo, in première. De DVD bevat de oorspronkelijke versie van de film.***

***Tarzan the Terrible is a novel by American writer Edgar Rice Burroughs, the eighth in his series of twenty-four books about the title character Tarzan. The foremost and most energetic in instituting this search was the bosom friend of Mr. Shuttleworthy, a Mr. Charles Goodfellow, or, as he was universally called, Charley Goodfellow, or Old Charley Good fellow. Now, whether it is a marvellous coincidence, or whether it is that the name itself has an imperceptible effect upon the character, I have never yet been able to ascertain; but the fact is unquestionable that***

*there never yet was any person named Charles who was not an open, manly, honest, good-natured, and frank-hearted fellow, with a rich, clear voice, that did you good to hear it, and an eye that looked you always straight in the face, as much as to say: I have a clear conscience myself, am afraid of no man, and am altogether above doing a mean action. And thus all the hearty, careless, walking gentlemen of the stage are very certain to be called Charles. Brother Men is the first published collection of private letters of Edgar Rice Burroughs, the phenomenally successful author of adventure, fantasy, and science fiction tales, including the Tarzan series. The correspondence presented here is Burroughs's decades-long exchange with Herbert T. Weston, the maternal great-grandfather of this volume's editor, Matt Cohen. The trove of correspondence Cohen discovered unexpectedly during a visit home includes hundreds of items—letters, photographs, telegrams, postcards, and illustrations—spanning from 1903 to 1945. Since Weston kept carbon copies of his own letters, the material documents a lifelong friendship that had begun in the 1890s, when the two men met in military school. In these letters, Burroughs and Weston discuss their experiences of family, work, war, disease and health, sports, and new technology over a period spanning two world*

**wars, the Great Depression, and widespread political change. Their exchanges provide a window into the personal writings of the legendary creator of Tarzan and reveal Burroughs's ideas about race, nation, and what it meant to be a man in early-twentieth-century America. The Burroughs-Weston letters trace a fascinating personal and business relationship that evolved as the two men and their wives embarked on joint capital ventures, traveled frequently, and navigated the difficult waters of child-rearing, divorce, and aging. Brother Men includes never-before-published images, annotations, and a critical introduction in which Cohen explores the significance of the sustained, emotional male friendship evident in the letters. Rich with insights related to visual culture and media technologies, consumerism, the history of the family, the history of authorship and readership, and the development of the West, these letters make it clear that Tarzan was only one small part of Edgar Rice Burroughs's broad engagement with modern culture.**

Afterwards, the short story will be analyzed regarding its content, literary devices and linguistic means, especially in the end. Furthermore, I wanted to think out of the box and therefore included a personal diagnosis regarding the narrator's psychological disorders. Rounding up this paper, I rewrote the short story by looking at it from a different perspective – my piece is told by the old man who is assassinated and can thereby answer some questions that have so far remained insoluble.
