*This volume presents over 1070 coins (ca. 310 BC–AD 641) and 1320 examples of Late Roman and Early Islamic pottery. Kom al-Ahmer and Kom Wasit emerge as centers of an exchange network involving large-scale trade of raw materials to and*

*from the central and eastern Mediterranean. Dress and Personal Appearance in Late Antiquity. The Clothing of the Middle and Lower Classes examines written, art historical and archaeological evidence to understand the way that cloth and clothing was made, embellished, cared for and recycled during this period. At OCD the losers are tormented. At Alpha Academy, they're sent home. Skye Hamilton has scored an invitation to the ultra-exclusive Alphas-only boarding school where beta is spelled LBR . What happens when the country's best, brightest, and hawtest begin clawing and scratching their way to the top? The 7th and the 8th Asian Logic Conferences belong to the series of logic conferences inaugurated in Singapore in 1981. This meeting is held once every three years and rotates among countries in the Asia-Pacific region, with interests in the broad area of logic, including theoretical computer science. It is now considered a major conference in this field and is regularly sponsored by the Association for Symbolic Logic. This book contains papers — many of them surveys by leading experts — of both the 7th meeting (in Hsi-Tou, Taiwan) and the 8th (in Chongqing, China). The volume planned for the 7th meeting was interrupted by the earthquake in Taiwan and the decision was made to combine the two proceedings. The 8th conference is also the ICM2002 Satellite Conference on Mathematical Logic. Contents: Five Puzzles about Mathematics in Search of Solutions (C S Chihara) Computability, Definability and Algebraic Structures (R Downey) Popper and Miller, and Induction and Deduction (E Eells) Enlargements of Polynomial Coalgebras (R Goldblatt) A Common Structure of Logical and Algebraic Algorithms (Y Kawaguchi) Computational Complexity of Fractals (K I Ko) Definability in Local Degree Structures — A Survey of Recent Results Related to Jump Classes (A Li & Y Yang) An Application of NDJPROP to the Catch and Throw Mechanism (M Nakata et al.) A Problem on Theories with a Finite Number of Countable Models (A Tsuboi) Diamond Embeddings into the D.C.E. Degrees with 0 and 1 Preserved (G Wu) and other papers Readership: Logicians, computer scientists, research mathematicians and graduate students. Keywords: Another weighty regimental history, two volumes, 820 pages in all covering the record of twenty-two battalions in France, Flanders, Italy and Gallipoli (all of them served on the Western Front). When war broke out the regiment consisted of two Regular battalions (1st and 2nd), two Special Reserve (3rd and 4th) and four Territorial battalions (5th to 8th); the 1st Battalion went to France with 6th Division in September 1914, the 2nd Battalion came home from Malta to join the newly formed 8th Division (Regular) and went to France in November 1914. Both battalions remained in the same brigades (18th and 23rd) and divisions throughout the war. The four Territorial*

*battalions each formed a 2nd and a 3rd line battalion; the four original battalions made up the 146th Brigade, 49th (West Riding) Division, arriving in France in April 1915, the second line battalions combined to make the 185th Brigade, 62nd (2nd West Riding) Division which arrived in France in January 1917. Kitchener's call to arms resulted in eleven Service battalions being raised, 9th to 18th (the 17th was formed as a Bantam battalion) and 21st; of these only 13th and 14th did not go on active service. The 21st Battalion became a Pioneer battalion in 4th Division and the 22nd was a Labour battalion which also went to France. This history records events in chronological order, the dates of the operations being described are shown in the margin as are the identities of the battalions involved. Volume 1 (x + 355pp with 18 maps and 15 b/w photos) covers the period from the outbreak of war to the end of 1916, the close of the Somme offensive and includes the Dardanelles campaign where the 9th Battalion was in action with the 11th (Northern) Division. On 1st July 1916, the first day of the Somme, the 10th Battalion attacked at Fricourt and incurred the heaviest casualties of any battalion - 710, of whom 307 were killed including the CO, 2IC, adjutant and two company commanders. More than half of them are in in Fricourt New Military Cemetery which is in the No Man's Land across which they attacked and where they died. The CO (Lt Col Dickson) and his adjutant (Capt Shann) lie side by side. There is a Roll of Honour for the period covered in which the other ranks are listed alphabetically by battalions as are the Territorial battalion officers; the other officers are shown in one group in alphabetical order with the battalion number in front of the name. Although the note at the head of the officer casualty list states that the theatre in which death occurred is France and Flanders unless otherwise indicated, nonetheless 'Gallipoli' is not shown against the names of the officers of the 9th Battalion who died there, and so one is left with the wrong impression they died on the Western front.*
