A dark fantasy novel about what a father will do to never let anything horrible happen to his child. Mystery, magic, mayhem and eternal love seem to follow Paulos and his daughter Kindle, while she struggles to survive and understand her existence. Contracts have fine print. If you don't take the time to read it, you may get more than you bargained for, and a contract is binding...forever. As a former political tracker with a brand-new law degree, Sam Callahan has turned his life around, leaving behind a childhood ravaged by abuse and a fatally dangerous job shadowing political candidates. Now a lawyer, Sam hopes for a risk-free future, but harm's way has a much longer reach than he could ever expect. His very first legal client is gunned down in a Mexico City hotel, and Sam barely dodges a bullet himself. Suddenly on everyone's most-wanted list--brutal hit men, hostile cops, relentless FBI agents, and even an infamous assassin--he doesn't have the luxury of finding out why. When Sam's girlfriend is dragged into the fray by a kidnapper, Sam would do anything to save her life. The catch? He's got only twenty-four hours to do it...but any number of ways to die. "This is a great beach read." —USA Today Network In the remote Four Corners region of Colorado, Special Agent Nathaniel Arkin, a disgraced former intelligence officer, investigates the killing of a bigoted, vitriolic preacher who was about to be elected to the U.S. House of Representatives. In processing the murder scene, Arkin thinks he recognizes the modus operandi of a shadowy group he pursued and was on the verge of exposing years earlier, just before his abrupt fall from grace and exile from Washington, D.C. Rumored to be run by a self-righteous, lapsed Jesuit priest, it was a group Arkin long suspected of orchestrating an international assassination campaign targeting charismatic, fledgling fanatics—future Hitlers and bin Ladens—just as they emerged from obscurity, before they were capable of instigating mass murder. Reluctant, but aching for redemption, Arkin

resumes the chase, setting in motion a chain of events that could lead to his salvation—or his doom. Along the way, he confronts a question that has troubled him for many years: What creates murderous fundamentalists and fanatics like Hitler and bin Laden in the first place? How would you feel if you meandered into a tale and suddenly found it leading you up a twisted path of intrigue and evil? Life is made up of light and shade. Just when you feel that things are in your control, the darkness moves in and edges the light out. That is when the shadows follow, creating an atmosphere of disquiet. The stories in this anthology do just that. They keep you wondering where they are leading you till the shadows catch up with you. The enthralling second novel in the New York Times bestselling Raven's Shadow series, and sequel to the critically acclaimed epic fantasy debut Blood Song THE REALM BURNS. Vaelin Al Sorna is tired of war. He's fought countless battles in service to the Realm and Faith. His reward was the loss of his love, the death of his friends and a betrayal by his king. After five years in an Alpiran dungeon, he just wants to go home. Reva intends to welcome Vaelin back with a knife between the ribs. He destroyed her family and ruined her life. Nothing will stop her from exacting bloody vengeance - not even the threat of invasion from the greatest enemy the Realm has ever faced. Yet as the fires of war spread, foes become friends and truths turn to lies. To save the Realm, Reva must embrace a future she does not want - and Vaelin must revisit a past he'd rather leave buried. Following the collapse of his business and the loss of his home, Frank Kane agreed to smuggle cocaine out of Venezuela. Almost inevitably, he and his girlfriend, Sam, were caught. The price they paid was a ten-year sentence in the hell of the overcrowded Venezuelan prison system. Here, he tells his story. The king's best soldiers are investigating strange stories from the villagers that couldn't possibly be true. But the men will soon learn the merit the stories hold in horrifying detail. To counter this new enemy, the king rallies his son, Prince Quinn, their army and the entire kingdom to confront this dark force in an epic tale of adventure, magic and mystery as the veil between their world and Perdition grows thin. Join the Prince as he battles for his land, his people and their lives as they unravel ancient secrets from the past to try to stop the evil that has opened the gates of Perdition. Can this evil ever be fully contained? What sacrifices will the Prince have to make to stop the death and destruction? And is he willing to make the ultimate sacrifice to save all that he loves? An urgent and definitive collection of essays from leaders and experts championing the Green New Deal—and a detailed playbook for how we can win it—including contributions by leading activists and progressive writers like Varshini Prakash, Rhiana Gunn-Wright, Bill McKibben, Rev William Barber II, and more. In October 2018, scientists warned that we have less than 12 years left to transform our economy away from fossil fuels, or face catastrophic climate change. At that moment, there was no plan in the US to decarbonize our economy that fast. Less than two years later, every major Democratic presidential candidate has embraced the vision of the Green New Deal—a rapid, vast transformation of our economy to avert climate catastrophe while securing economic and racial justice for all. What happened? A new generation of leaders confronted the political establishment in Washington DC with a simple message: the climate crisis is here, and the Green New Deal is our last, best hope for a livable future. Now comes the hard part: turning that vision into the law of the land. In *Winning a Green New Deal*, leading youth activists,

journalists, and policymakers explain why we need a transformative agenda to avert climate catastrophe, and how our movement can organize to win. Featuring essays by Varshini Prakash, cofounder of Sunrise Movement; Rhiana Gunn-Wright, Green New Deal policy architect; Joseph Stiglitz, Nobel Prize-winning economist; Bill McKibben, internationally renowned environmentalist; Mary Kay Henry, the President of the Service Employees International Union, and others we'll learn why the climate crisis cannot be solved unless we also confront inequality and racism, how movements can redefine what's politically possible and overcome the opposition of fossil fuel billionaires, and how a Green New Deal will build a just and thriving economy for all of us. For anyone looking to understand the movement for a Green New Deal, and join the fight for a livable future, there is no resource as clear and practical as *Winning the Green New Deal*. This book explores the narratives of girlhood in contemporary YA vampire fiction, bringing into the spotlight the genre's radical, ambivalent, and contradictory visions of young femininity. Agnieszka Stasiewicz-Biełkowska considers less-explored popular vampire series for girls, particularly those by P.C. and Kristin Cast and Richelle Mead, tracing the ways in which they engage in larger cultural conversations on girlhood in the Western world. Mapping the interactions between girl and vampire corporealities, delving into the unconventional tales of vampire romance and girl sexual expressions, examining the narratives of women and violence, and venturing into the uncanny vampire classroom to unmask its critique of present-day schooling, the volume offers a new perspective on the vampire genre and an engaging insight into the complexities of growing up a girl.

Innovation. No other concept is so widely celebrated, yet so secretly dreaded. The reason: innovation requires managing through uncertainty. This is hard for any organization whether private or public, small or large. This book provides a roadmap for those who want to understand and manage innovation in all its aspects. It explains both the "how" and the "why" of innovation – its economic and policy context as well as the techniques by which it can be orchestrated, along with the management systems needed to govern it. Innovation is uniquely presented through both a private-sector (value-creating) and public-sector (mission-fulfilling) lens. Topics covered in context include modern innovation and creativity techniques such as design thinking and the Lean Startup, the organizational challenges of innovation, as well as innovation project- and portfolio management techniques. Business-model innovation and open innovation complete the picture from the manager's perspective. The private and public financing of R&D, startups, and corporate innovation are presented – contrasting the private and public worlds while explaining how they complement each other. Government innovation policy is discussed in its historical and contemporary context, and the innovation policy toolset is introduced. Continual innovation is vital for companies and countries to prosper. Readers will learn why innovation must follow technological breakthroughs to raise productivity and economic growth, and how innovation – when done right – can benefit larger society. An explanation for unequal growth – that some companies, regions, and countries are not seeing the full productivity gains promised by modern technology – is explored in the context of technology diffusion. No previous experience in innovation management, economics or public policy is assumed, and the book moves fast to equip the reader with practical tools and techniques. *Innovation for Value and Mission* is suitable for an introductory graduate level course, or as a desk reference for experienced practitioners and policymakers. Because

it connects multiple topic areas and contains ample additional references, the book is also a great resource for those with expertise in one particular area of innovation who desire to branch out into other areas. **A ROUGH TRADE, MOJO, UNCUT & LOUDER THAN WAR BOOK OF THE YEAR SHORTLISTED FOR THE RALPH J. Their own secrets--in this gripping novel of suspense by the bestselling author of *In the Heat of the Moment*. The new summer house on Sandhamn Island is an architectural dream for its owner, Carsten Jonsson. It's a nightmare for the locals. The venture capitalist has flouted local traditions, property lines, and the natural beauty of the coastline. He's also too wealthy and arrogant to heed the anonymous warnings to leave. The threats escalate when his guest lodge is burned to the ground and an unidentifiable corpse is found in the charred ruins. Detective Inspector Thomas Andreasson isn't sure if it's murder or a tragic accident. Until his friend attorney Nora Linde is drawn into the investigation. Nora's emotional investment in Carsten's fragile and fearful wife, Celia, is yielding a new level of suspicion: that the Jonssons are hiding more than anyone can imagine. Now Thomas and Nora must sift through the ashes of a puzzling crime and step into the shadows of a powerful family, whose deadly secrets are coming to light on Sandhamn. Janny Wurts's epic tale of two half-brothers cursed to life-long enmity continues in this spectacular second volume, now re-released with a striking new cover. The half-brothers Arithon, Master of Shadow, and Lysaer, Lord of Light, have defeated the Mistwraith and dispersed the fogs that smothered Athera's skies. But their victory comes at a high price: the Mistwraith has set them at odds under a powerful curse of vengeance. The two princes are locked in deadly enmity, with the fates of nations and the balance of the world's mystical powers entangled in their feud. Arithon, forced out of hiding, finds himself hounded by Lysaer and his mighty army. He must take to his natural element - the seas - in order to evade pursuit and steal the

initiative. However, his efforts are impeded by outside magical factions, not to mention a drunken prophet sent to safeguard his life, but who seems determined to wreck his cause by misadventure. Eva Peron remains Argentina's best-known and most iconic personality, surpassing even sporting superstars such as Diego Maradona or Lionel Messi, and far outlasting her own husband, President Juan Domingo Peron himself a remarkable and charismatic political leader without whom she, as an uneducated woman in an elitist and male-dominated society, could not have existed as a political figure. In this book, Jill Hedges tells the story of a remarkable woman whose glamour, charisma, political influence and controversial nature continue to generate huge amounts interest 60 years after her death. From her poverty-stricken upbringing as an illegitimate child in rural Argentina, Peron made her way to the highest echelons of Argentinean society, via a brief acting career and her relationship with Juan. After their political breakthrough, her charitable work and magnetic personality earned her wide public acclaim and there was national mourning following her death from cancer at the age of just 33. Based on new sources and first-hand interviews, the book will seek to explore the personality and experiences of 'Evita' and the contemporary events that influenced her and were in turn influenced by her. As the first substantive biography of Eva Peron in English, this book will be essential reading for anyone interested in modern Argentinean history and the cult of 'Evita'." A thousand-page resurrection of Hegel, from the bestselling philosopher and critic who has been hailed as "one of the world's best-known public intellectuals" (New York Review of Books) For the last two centuries, Western philosophy has developed in the shadow of Hegel, an influence each new thinker struggles to escape. As a consequence, Hegel's absolute idealism has become the bogeyman of philosophy, obscuring the fact that he is the defining philosopher of the historical transition to modernity, a period with which our own times share startling similarities. Today, as global capitalism comes apart at the seams, we are entering a new period of transition. In *Less Than Nothing*—the product of a career-long focus on the part of its author—Slavoj Žižek argues it is imperative we not simply return to Hegel but that we repeat and exceed his triumphs, overcoming his limitations by being even more Hegelian than the master himself. Such an approach not only enables Žižek to diagnose our present condition, but also to engage in a critical dialogue with key strands of contemporary thought—Heidegger, Badiou, speculative realism, quantum physics, and cognitive sciences. Modernity will begin and end with Hegel. This book was converted from its physical edition to the digital format by a community of volunteers. You may find it for free on the web. Gerard Rodgers aims to fill the gap in regional knowledge by exploring Ireland's evolving history and its potential implications for gay men's lives. Robert Bly, renowned poet and author of the groundbreaking bestseller *Iron John*, mingles essay and verse to explore the Shadow -- the dark

side of the human personality -- and the importance of confronting it. An unprecedented analysis of the crucial but underexplored roles the United States and other nations have played in shaping Syria's ongoing civil war "One of the best informed and non-partisan accounts of the Syrian tragedy yet published."—Patrick Cockburn, *Independent* Syria's brutal, long-lasting civil war is widely viewed as a domestic contest that began in 2011 and only later drew foreign nations into the fray. But in this book Christopher Phillips shows the crucial roles that were played by the United States, Russia, Iran, Saudi Arabia, Turkey, and Qatar in Syria's war right from the start. Phillips untangles the international influences on the tragic conflict and illuminates the West's strategy against ISIS, the decline of U.S. power in the region, and much more. Originally published in 2016, the book has been updated with two new chapters.

Grievously wounded private detective Charlie Parker investigates a case that has its origins in a Nazi concentration camp during the Second World War. Broken, but undeterred, private detective Charlie Parker faces the darkest of dark forces in a case with its roots in the second world war, and a concentration camp unlike any other . . . Recovering from a near-fatal shooting and tormented by memories of a world beyond this one, Parker has retreated to the small Maine town of Boreas to recover. There he befriends a widow named Ruth Winter and her young daughter, Amanda. But Ruth has her secrets. She is hiding from the past, and the forces that threaten her have their origins in the Second World War, in a town called Lubko and a concentration camp unlike any other. Old atrocities are about to be unearthed, and old sinners will kill to hide their sins. Now Parker is about to risk his life to defend a woman he barely knows, one who fears him almost as much as she fears those who are coming for her. His enemies believe him to be vulnerable. Fearful. Solitary. But they are wrong. Parker is far from afraid, and far from alone. For something is emerging from the shadows . . .

These days, most Americans know that the country has serious problems. Problems that will have to be addressed before the country can move forward. What are these problems? Where did they come from? Before we can move forward we have to know where we are and how we got there. *American Heart of Darkness* paints an unvarnished picture of the seeds of destruction that were sown into the foundations of the Republic from the very beginning. How did slavery come about in the land of the free? How did a pre-Columbian native population, in North America alone, of over eighteen million (yes, you heard it right) native peoples dwindle down to about two hundred thousand? Was it really Small Pox? Why has a people who constantly talk about freedom, democracy, equality, human rights, life, liberty, and the pursuit of happiness continually practiced racism, genocide, and war? How do drugs come into the country, and who is really behind the most profitable product sold in the world? There are also other unanswered questions that need to be explored: Why were thousands of the worst Nazi war criminals given refuge in the U.S.? Who financed Hitler? Where did Hitler get his master race and genocidal ideas from? Was Lee Harvey Oswald a C.I.A. agent? Were Oswald, Sirhan Sirhan, Ted Kaczynski, Timothy McVey, and the Peoples Temple all mind control, MKULTRA, subjects? What really happened in the Jeffery MacDonald, so-called Fatal Vision case? How does hundreds of billions of dollars come into the United States every year without detection? The answers to these questions, and many more, will surprise you! They are not in the History books, although they should be. *American Heart of Darkness, Volume I*, explores the ugly side of America that has been hidden for far too

long, and it is literally killing us. This book is not for the reader looking for an uplifting story to escape everyday life for a few hours. It is for true patriots who are sick and tired of being lied to and stolen from. It is for those who know they need to do something but do not know where to start. It is for those who feel powerless and that America's problems are far too big for little ol me to handle. It is for those with the courage to go from darkness to light. As comedian and activist Dick Gregory once said, If you been in the DARK for so long, LIGHT will hurt your eyes. This book will hurt your eyes. The reader will be shocked, then angry, then motivated, and finally, in the authors next two books, empowered and liberated. It is better to see where we are and where we need to go, right now, before it is too late. Congratulations! If you have read this far this book is probably for you. Please keep in mind the universal truth that with any form of government, the leaders only have the power that the people allow them have. This was true in India when a little skinny guy named Gandhi with no money and only a rag wrapped around his middle took on the British Empire, and won! There is no question that the American people have the power to reclaim a government that is clearly not being run for them. We have to empower ourselves to take this government back from only a handful of selfish and greedy individuals, who have proven that they only care about making more and more money. Let us all stop giving them the power that belongs to us. Reading this book is a beginning, and then we will talk about what to do about it in the authors next two books! "John A. Gotti who survived four trials and a parole violation hearing without a guilty verdict, in four years, now takes up his pen to tell the story of his father's unwavering dedication to the street, and how as his son he entered that life and then with his father's permission left the life of crime and put the "Family" behind him to live a legitimate life with his real family. It is a saga of betrayal and redemption, and an insider's view of how at times those who are tasked with upholding the law readily broke it to further their careers."--cover. This book brings together a carefully selected range of contemporary disciplinary approaches to new areas of Gothic inquiry. Moving beyond the representational and historically based aspects of literature and film that have dominated Gothic studies, this volume both acknowledges the contemporary diversification of Gothic scholarship and maps its changing and mutating incarnations. Drawing strength from their fascinating diversity, and points of correlation, the varied perspectives and subject areas cohere around a number of core themes — of re-evaluation, discovery, and convergence — to reveal emerging trends and new directions in Gothic scholarship. Visiting fascinating areas including the Gothic and digital realities, uncanny food experiences, representations of death and the public media, Gothic creatures and their popular legacies, new approaches to contemporary Gothic literature, and re-evaluations of the Gothic mode through regional narratives, essays reveal many patterns and intersecting approaches, forcefully testifying to the multifaceted, although lucidly coherent, nature of Gothic studies in the 21st Century. The multiple disciplines represented — from digital inquiry to food studies, from fine art to dramaturgy — engage with the Gothic in order to offer new definitions and methodological approaches to Gothic scholarship. The interdisciplinary, transnational focus of this volume provides exciting new insights into, and expanded and revitalised definitions of, the Gothic and its related fields. As a member of the Knights of the Realm, Reid swore an oath to protect her king only to discover he harbors a traitorous agenda. Being a woman raised in a man's world, Reid thought becoming a Knight

would give her purpose and strength. So far, it has done nothing but give her trouble. The king ordered her to spy on the Axian royal family while she prepares for her marriage—a marriage neither she nor Prince Dexter wants. Once in Axian, Reid realizes she's being used as a pawn in a decades-old political match. With the king and Knights seemingly at odds, Reid's allegiances are torn, especially when she finds friendship in the unlikeliest of places. As the kingdom of Marsden teeters on the brink of civil war, Reid must decide whose side she's on—even if that means betraying her king in order to save the kingdom. Beginning on August 9, 1945, in Nagasaki, and ending in a prison cell in the US in 2002, as a man is waiting to be sent to Guantanamo Bay, *Burnt Shadows* is an epic narrative of love and betrayal. Hiroko Tanaka is twenty-one and in love with the man she is to marry, Konrad Weiss. As she steps onto her veranda, wrapped in a kimono with three black cranes swooping across the back, her world is suddenly and irrevocably altered. In the numbing aftermath of the atomic bomb that obliterates everything she has known, all that remains are the bird-shaped burns on her back, an indelible reminder of the world she has lost. In search of new beginnings, two years later, Hiroko travels to Delhi. It is there that her life will become intertwined with that of Konrad's half sister, Elizabeth, her husband, James Burton, and their employee Sajjad Ashraf, from whom she starts to learn Urdu. With the partition of India, and the creation of Pakistan, Hiroko will find herself displaced once again, in a world where old wars are replaced by new conflicts. But the shadows of history--personal and political--are cast over the interrelated worlds of the Burtons, the Ashrafs, and the Tanakas as they are transported from Pakistan to New York and, in the novel's astonishing climax, to Afghanistan in the immediate wake of 9/11. The ties that have bound these families together over decades and generations are tested to the extreme, with unforeseeable consequences.

When the archive of the English philosopher and polymath Colin Wilson (1931-2013) was officially opened at the University of Nottingham, UK, in the summer of 2011, it was agreed among those present that a conference should be held there to discuss his work. In July 2016, the First International Colin Wilson Conference was staged with the Proceedings being published a year later. The success of that conference inevitably meant that a second was arranged and held two years later in July 2018. This volume—which will be of interest to scholars and fans of Wilson's work, in addition to students of philosophy and consciousness studies—contains the transcripts of the papers presented on July 6, 2018: day one of that second conference. Experts, scholars and fans, from around the globe, gathered to hear and present papers on a variety of Wilson-related topics ranging from Existentialism to the Occult; from Robert Musil to classical music; and from Transpersonal Psychology to Transcendental Evolution. *Dramatherapy for Borderline Personality Disorder: Empowering and Nurturing People Through Creativity* demonstrates how dramatherapy can empower those individuals struggling to live with borderline personality disorder, and help them embrace and control the emotional inner chaos they experience. Based on current research into the aetiology, symptoms and co-morbid disorders associated with BPD (and emotionally unstable personality disorder), this book demonstrates the effectiveness of dramatherapy for individuals and groups on specialist personality disorder wards and in mixed diagnosis rehabilitation units. It also reveals a creative approach for making dramatherapy work in harmony with approaches such as dialectical behaviour therapy and cognitive behaviour therapy. Aimed at those working with service users, and utilising a

range of case studies and clinical vignettes, *Dramatherapy for Borderline Personality Disorder* provides an insight into the potential of dramatherapy, which will be welcomed by mental health professionals. In prose as beautiful as it is powerful, Rita Gabis follows the trail of her grandfather's collaboration with the Nazis; a trail riddled with secrets, slaughter, mystery, and discovery. Rita Gabis comes from a family of Eastern European Jews and Lithuanian Catholics. She was close to her Catholic grandfather as a child and knew one version of his past: prior to immigration he had fought the Russians, whose brutal occupation of Lithuania destroyed thousands of lives before Hitler's army swept in. Five years ago, Gabis discovered an unthinkable dimension to her family story: from 1941 to 1943, her grandfather had been Chief of Security Police under the Gestapo in the Lithuanian town of Svencionys, near the killing field of Poligon, where 8,000 Jews were murdered over three days in the fall of 1941. In 1942, the local Polish population was also hunted down. Gabis felt compelled to find out the complicated truth of who her grandfather was and what he had done. Built around dramatic interviews in four countries, filled with original scholarship, and mesmerizing in its lyricism, *A Guest at the Shooters' Banquet* is a history and family memoir like no other, documenting "the holocaust by bullets" in a remarkable quest as Gabis returns again and again to the country of her grandfather's birth to learn all she can about the man she thought she knew.

Ryszard Kapuscinski has been writing about the people of Africa throughout his career. In this study, he sets out to create an account of post-colonial Africa seen as both a whole and as a location, defying generalized explanations, and avoiding the official routes, palaces and big politics. "Sean O'Neil explores several narratives at the intersection of religion and disability across the spectrum of contemporary sports. He ties religious belief and practice to the oftentimes fragile bodies of athletes, including those with disabilities. Athletic triumph over fragility is couched in religious terms, though not always with strictly Christian connotations, and O'Neil interleaves his own limitations through an autoethnographic presentation of his battle with skin cancer and his lifelong struggle with obsessive compulsive disorder"--

A collection of short stories of clarity while lost among the shadows of the Amazon. *Rainy Season*, 1994

Last night I realized I'd been lost for months: crossing the closed territories of Venezuela, Columbia, Brazil, Guiana, Suriname; paddling the tributaries and backwaters of the Orinoco, Negro, Coppename, Gran, and Maroni; spending weeks at a time off the map, places where there are few roads, almost no communication, and everything closes for siesta—the Amazonas, Vichada, Roraima, La Gran Sabana—a world where the information one discovers by chance is more up-to-date than any official source; places where, by acting confident and staying in control, one can fix almost anything. The best strategy was to simply wait an hour, since no one is going anywhere, anyway. There are no tourists' camps here; these places are not a destination, nor are they stops on any printed route or schedule. These are the interior territories, vast places that are closed, regions that, if you ask, do not exist. Getting here requires taking riverboats, dugouts, paths, and game trails to their ends, then going farther, into the shadows; letting weather and interest be the guide, moving village by village, river to river; like jungle fog, flowing among hidden places and people, then disappearing. By becoming a shadow in a world that cannot be found in any guidebook, I've found clarity.

A Shadow in the Forest; Disappearing in the Amazon. 'He was one of Hitler's right-hand men. Ruthless. Sinister. He was a shadow of pure evil. And

When his Grandad's secret military past is mistakenly uncovered, Danny Forbes' world is suddenly a more exciting place. But then mysterious shadows disturb his dreams, and everything he knows begins to fall apart. "This is a great beach read." — USA Today Network Now a fugitive—having been framed for murder—Special Agent Nathaniel Arkin, a disgraced former intelligence officer, continues his pursuit of a shadowy group he suspects of orchestrating an international assassination campaign targeting charismatic, fledgling fanatics—future Hitlers and bin Ladens—just as they emerge from obscurity, before they are capable of instigating mass murder. The barest of clues lead Arkin on a desperate quest to hunt down the hidden ringleaders of the conspiracy and find evidence that might ultimately clear his name. As he goes along, Arkin begins to wrangle with the question of whether the group should, in the interest of the greater good of humanity, be left to its philanthropic but murderous ways.
